About Jotunheimen National Park

According to Norse mythology, Jotunheimen was the place where the jotner – the trolls – lived. This spellbound massive mountain scape in Eastern Norway, covering 3.500sqkm, is packed with waterfalls, rivers, lakes, glaciers, and valleys – and some of Northern Europe's highest mountains.

The most beautiful way to enter Jotunheimen is via the Norwegian Scenic Routes Sognefjellet and Valdresflye. Valdresflye passes the emerald-green Lake Gjende. Most people take the Gjende ferry from Gjendesheim to Memurubu, a scenic twenty-minute ride, and start their 8-hour hike from there. The ridge itself is both narrow and steep, so you really shouldn't be afraid of heights. Recommended for experienced hikers only.

If you are not hiking, you may want to try Norway's best rafting, in the river Sjoa, or go climbing, cycling or horseback riding.

Whether its winter, spring, summer or fall, nothing tastes better than a homemade meal after an active day in the wild. Jotunheimen has a long culinary tradition, and you will find local delicacies like reindeer meat, sausages, cured meat, cheese, and jam. Many of the low-key mountain cabins and hotels in the area serve high-quality food based on seasonal ingredients.

When your stomach is full, your hunger for culture can be satisfied in Lom national park village. Here you find famous attractions like the Lom Stave Church from the 1100s, Lom open-air museum, and the Norwegian Mountain Centre.

Galdhøpiggen Hike

The last mile from Raubergstulen is a toll road. From Juvasshytta 1840 masl, the first part goes through scree in easy terrain into the glacier where you are tied by rope. Further,, it takes less than an hour to cross the glacier, before the last and heaviest part of the trip up Piggeura.
