" PARKING UP FOR THE NIGHT "

For any car enthusiast, then this trip is a must! Germany has always been renowned for their genius in building cars and this hotel is almost like a museum too. You have a classic Mercedes Benz theme, Jaguar theme and even for those of us who remember there's even a Herbie one.

“Getting Your Motor Running”

The V8 Hotel in Böblingen is your hotel for visiting the Motor world Region of Stuttgart . The epochs of automotive history and the versatile use of vehicles over time are reflected in the furnishings of the hotel rooms in both houses. The perfect ambience for all automobile fans with petrol in their veins.

Whether in the bar, lobby or in the restaurant - every guest will find their individual feel-good area with us.

Our V8 themed rooms allow guests to immerse themselves in their very own themed world. No room is like the other, everything is individually furnished and equipped with unique items. Illustrations and a wide variety of furniture and beds made from real vehicle parts come together to form a total work of art.

Did You Know? The first Mercedes-Benz introduced the modern automobile to the world. Karl Benz patented his three-wheeled, petrol-powered Motorwagen in 1886, which his wife Bertha Benz proceeded to take on a 120-mile tour through Germany without his knowledge. It was powered by a 954cc single-piston & four-stroke engine.
